

# Notice of Pre-Application Meeting

April 9, 2014

Dear Neighbor:

You are invited to a neighborhood Pre-Application meeting to review and discuss the development proposal at **901 16<sup>th</sup> Street and 1200 17<sup>th</sup> Street**, cross street **Mississippi and Missouri Streets; (Block/Lot#: 3949/001, 001A, 002; 3950/001; Zoning: Urban Mixed Use District; Height & Bulk Districts: 48-X, 68-X)**, in accordance with the San Francisco Planning Department's Pre-Application procedures. The Pre-Application meeting is intended as a way for the Project Sponsor(s) to discuss the project and review the proposed plans with surrounding neighbors and interested neighborhood organizations before the submittal of an application to the City. This provides neighbors an opportunity to raise questions and discuss any concerns about the project before project applications are submitted for the Planning Department's review.

The Pre-Application process is only required for projects subject to Planning Code Section 311 or 312 Notification. It serves as the first step in the process prior to building permit or other entitlement application submittal. Those contacted as a result of the Pre-Application process will also receive a formal entitlement notice or 311 or 312 notification when the project is submitted and reviewed by Planning Department staff. Once a Building Permit application has been submitted to the City, you may track its status at [www.sfgov.org/dbi](http://www.sfgov.org/dbi).

A Pre-Application meeting is required because this project includes (check all that apply)

- ✓ New Construction;
  - Any vertical addition of 7 feet or more;
  - Any horizontal addition of 10 feet or more;
  - Decks over 10 feet above grade or within the required rear yard;
  - All Formula Retail uses subject to a Conditional Use Authorization.

The development proposal is to: **provide a mixed use residential and retail development with associated ancillary interior and exterior spaces.**

	<u>901 16<sup>th</sup> / 1200 17<sup>th</sup></u>
